---

We bid a fond farewell to Scott Hoskin today, who is leaving Maxwill Racing Engines after an amazing 22 years with us, and 28 years in the race engine industry overall. Without his tireless efforts we would not be where we are today, and his unique presence in the workshop will be greatly missed.

Although an integral part of the business and a key member of the team, it will be business as usual for us here at Maxwills, and we'll continue providing great service for our customers, with lots of exciting projects in the works for both here and overseas.

All the best for the future Scotty!
